

KaRDS Cyber Solutions, LLC

A Veteran – Owned Small Business (VOSB)

WHO WE ARE

Headquartered in New Windsor, Maryland, KaRDS Cyber Solutions, LLC (KaRDS) is a growing Veteran – Owned Small Business (VOSB) that holds its initial focus on defense. KaRDS, founded in 2010, is a reliable professional consulting organization focusing its efforts on bringing high quality information assurance, cyber operations, systems engineering, curricular development, program management and acquisition support. We have a strong understanding of the Federal contracting environment. We will bring an instantaneous competitive advantage as well as expertise to your firm at a competitive price.

SERVICES

Acquisition Support

We believe in the principles of fiscally-responsibility acquisition held by the Defense Acquisition University, tailored artfully to meet the needs of our clients and partners. We are ready to accept the recommendations (and resumes) of DAWIA-certified individuals.

Curriculum Development

Our Instructors and Curriculum Developers are well versed in both the traditional class settings as well as familiar with the latest on line tool and techniques for Distant Learning engagements.

Cyber Operations and Cyber Situational Awareness

We understand that Cyber Operations and Cyber Situational Awareness are crucial to our national defense as well as our economic recovery. We are also aware of much of the justified skepticism surrounding the indiscriminate use of the term “cyber”.

Information Assurance

We believe in the principles of Information Assurance/ Information Security held by International Information Systems Security Certification Consortium, Inc., tailored artfully to meet the needs of our clients and partners.

Program and Portfolio Management

We believe in the principles of Project Management / Portfolio Management held by the Project Management Institute (PMI), tailored artfully to meet the needs of our clients and partners.

Systems Engineering and Enterprise Architecture

We believe in the principles of Systems Engineering held by the International Council on Systems Engineering tailored artfully to meet the needs of our clients and partners. We are comfortable with a variety of Enterprise Architecture frameworks.
